

Together we can

FAQS for Applicants

1. The Funding

What is the funding for?

Sports clubs or organisations working within the sport for development sector (this includes any physical activity), which are able to demonstrate that the COVID-19 pandemic has adversely affected them, either operationally or financially, and which require funding to save, resume or adapt their activity.

This is a one-off, unrestricted donation but Made By Sports anticipates that the funding may be used for one of the following purposes:

- Direct project costs including equipment and kit
- Staff costs related to the project including appropriately apportioned management time
- Appropriately apportioned core costs
- External monitoring and evaluation of projects
- Transport
- Volunteer expenses
- Small capital expenditure items (such as changing facilities, resurfacing a play area or IT equipment), where a sustainable plan is in place for ongoing upkeep and maintenance.

How much can I apply for?

A one-off grant of £2,021. If you do not need as much as that but would like to apply anyway, please do.

What can the funding be spent on?

The funding is unrestricted so can be spent on core costs as well as on programme or capital costs. Funds can also be used towards match-funding or for leverage for a larger programme.

Are there any other conditions of the grant?

No, but we are interested in the funding being used for two things and will ask you about this in the end of project reporting:

- As the funding is unrestricted, we would love to see it used as match funding to leverage other funds for your club or organisation.
- We would also like to see how it can be used to ensure the sustainability of your club.

2. Eligibility

Who can apply?

Purpose: Organisations promoting sport primarily for young people aged 5 - 25. Clubs or organisations which intentionally use sport *or any physical activity* to deliver wider social outcomes. The organisations we are looking for operate mostly in disadvantaged communities, often working collaboratively with other partners to meet local need and may offer cross-sector activities.

Specifically, we will fund clubs and organisations which can demonstrate that they are using sport to work towards one or more of the following outcomes:

- **Developing Life Skills** - projects which develop the soft skills that will ultimately improve the life chances of young people, specifically projects which work towards any of the six key areas of life skills development identified by the World Health Organisation (WHO):
 - Communication and interpersonal skills.
 - Decision-making and problem solving.
 - Creative thinking and critical thinking.
 - Self-awareness and empathy.
 - Assertiveness and self-control.
 - Resilience.
- **Improving Mental Health** - projects which promote positive mental health through physical activity, which:
 - Achieve increased confidence and resilience.
 - Encourage positive social interaction.
 - Specifically address mental health issues such as depression, anxiety or ADHD.
 - Focus on general wellbeing and wellness.
- **Reducing Crime and Anti-Social Behaviour** - projects which reduce crime and anti-social behaviour, either through providing diversionary activities at key times, or through modifying and promoting positive behaviour.
- **Developing Employability Skills** - projects which either develop employability skills or those which provide actual pathways to employment. To differentiate projects working towards this outcome from projects working towards the general soft skills outcome, we would like you to prioritise projects working towards one of the following three outcomes, for young people aged 16 and above:
 - Communication and interpersonal skills, including working well with others.
 - Reliability and dependability, including meeting deadlines and turning up on time.
 - The ability and willingness to learn new skills, whether job-specific or more general.

In terms of specific pathways to employment, we will include funding for volunteer pathways and qualifications in sport.

- **Building Stronger Communities** - projects which build and rebuild communities, for example:
 - Those which encourage integration or bridge divides between groups of people.
 - Those providing opportunities for vulnerable or marginalised groups.

Here are some examples of funding:

Developing Life Skills: Greenhouse Sports uses inspirational sports coaching and mentoring to engage young people and improve their life chances. They partner with schools to provide opportunities for young people who may be disengaged, vulnerable or facing disadvantage to develop the social, thinking, emotional and physical skills that help them thrive.

Improving Mental Health: Westport is a charity in the West of England which runs various projects using sport to improve mental health. Bristol Active Life Project works in partnership with people who experience Severe and Enduring Mental illness (SMI) by enabling them to improve their own health and wellbeing through taking part in sport and exercise opportunities in the local community.

Reducing Crime and ASB: TSA Projects, based in Birmingham, deliver programmes in partnership with charities to engage with hard-to-reach young people. They provide a positive space for young people to communicate safely about potentially dangerous situations, and encourage a range of activities, including sport-based programmes, to support their personal development, safety, confidence to ensure they stay away from criminal activity.

Employability: The Blair Project; a karting project in Manchester that develops employability opportunities and Science, Technology, Engineering and Maths (STEM) skills for young people aged 15-18 by designing and 3D printing karts they then race.

Community Cohesion: Boots & Beards; a Glasgow based organisation that started life aiming to get young people off their screens and exercising through hiking. Now the project focuses on bringing together people from all parts of the BME community to go on likeminded adventures, exploring and promoting Scotland's natural landscape.

Geography: This is a national Fund, meaning clubs and organisations constituted and operating within the UK can apply to their relevant Community Foundation. The Community Foundation for Surrey will be supporting groups which work within Surrey, for Surrey beneficiaries. Our area of interest includes the 11 Boroughs under Surrey County Council, and not the London Boroughs such as Croydon, Sutton, and Kingston, which may have historical references to Surrey, but are no longer part of Surrey.

Constitution:

- Charities registered in the UK, specifically within Surrey
- Social enterprises and Community Interest Companies
- Other not-for profit organisations

Organisation Size: Organisations with an annual turnover of up to £75,000 with the following priorities:

- Priority 1 – Up to £25,000
- Priority 2 – Up to £50,000
- Priority 3 – Up to £75,000

Who cannot apply?

- Community sport clubs and organisations which only focus on developing and widening opportunities to participate (traditionally those voluntary sports clubs and organisations overseen by governing bodies) which are not intentionally working towards one of these five sport for development outcomes:
 - Developing Life Skills
 - Improving Mental Health
 - Reducing Crime and Anti-Social Behaviour
 - Developing Employability Skills
 - Building Stronger Communities
- Organisations which are unable to demonstrate that the pandemic has affected them, either operationally or financially.

Geography: Organisations constituted and operating outside of Surrey.

Constitution:

- Individuals
- Sole traders
- Private companies
- Government linked bodies (excluding clubs who have received National lottery or Sport England Funding)

Organisation Size: Organisations with an annual turnover of over £75,000.

3. The Process

When can I apply?

The Fund will open on Monday 12th April and applications can be submitted over the following 5 weeks until 8am Monday 17th May. There is no Expression of Interest for this Fund; simply complete and submit your online application (and provide your supporting documents), and we will be in touch if we have any further questions. Please note, funding outcomes will be available by Mid-July.

How do I apply?

Information about the Fund, along with the application form, can be found on our website <https://www.cfsurrey.org.uk/madebysport>

There is no Expression of Interest phase for this funding; simply complete the online application form by 9am Monday 17th May using this link <https://ukcf.secure.force.com/forms/Surrey/MadeBySports>

What information will I need to apply?

We will ask you to complete an application form which will have various sections, including:

- Proof of your eligibility for the fund – your constitution, where you operate, your organisation size, your purpose against the five social outcomes and so on.
- Further information about your organisation including your contact details, who you work with, how you are funded, how many young people are in your organisation and who it is run by.
- What you would like the funding for.
- We'll also ask for evidence, for example of your bank account, and that you are delivering sport for a social purpose.

What happens after I apply?

After the Fund closes at 9am on Monday 17th May, our Grants Team will begin assessing the applications. We might be in touch if we have any questions. Once all the assessments are complete, the applications will be reviewed by our Grants Committee. We anticipate having outcomes/decisions around the middle of July. We will be in touch with you via email to inform you of the outcome of your application.

Appendix 1 - Defining Sport for Development

What differentiates sport for development from community sport?

Sport for development is defined as the intentional use of sport to achieve other social outcomes and is a powerful tool to help young people deal with these issues. Community sports clubs and organisation's deliver better mental health, less crime and anti-social behaviour, pathways to employment, life-skills and community-cohesion.

Community sport focusses on developing and widening opportunities to participate, traditionally within voluntary sports clubs and organisations overseen by governing bodies.

Sport for development intentionally uses community sport provision to deliver wider social outcomes, usually through third sector and voluntary, community and social enterprise (VCSE) bodies. Mostly in disadvantaged communities, these organisations often work collaboratively with other partners to meet local need and may offer cross-sector activities.

Outcomes based funding: The Made By Sport Fund will only fund sport for development projects and organisations which work towards one or more of those outcomes:

Developing Life Skills - We will support projects and organisations which develop the soft skills that will ultimately improve the life chances of young people, specifically projects which work towards any of the six key areas of life skills development identified by the WHO:

- 1) Communication and interpersonal skills
- 2) Decision-making and problem solving
- 3) Creative thinking and critical thinking
- 4) Self-awareness and empathy
- 5) Assertiveness and self-control
- 6) Resilience.

Improving Mental Health - We will support projects and organisations which promote positive mental health through physical activity, which:

- Achieve increased confidence and resilience.
- Encourage positive social interaction.
- Specifically address mental health issues such as depression, anxiety or ADHD.
- Focus on general wellbeing and wellness.

Reducing Crime and Anti-Social Behaviour - We will support projects and organisations which reduce crime and anti-social behaviour, either through providing diversionary activities at key times, or through modifying and promoting positive behaviour.

Developing Employability Skills - We will support projects and organisations which either develop employability skills or those which provide actual pathways to employment.

To differentiate projects working towards this outcome from projects working towards the general soft skills outcome, we will prioritise projects working towards one of the following three outcomes, for young people aged 16 and above:

- 1) Communication and interpersonal skills, including working well with others.
- 2) Reliability and dependability, including meeting deadlines and turning up on time.
- 3) The ability and willingness to learn new skills, whether job-specific or more general.

In terms of specific pathways to employment, we will include funding for volunteer pathways and qualifications in sport.

Building Stronger Communities - We will support projects and organisations which build and rebuild communities, for example:

- Those which encourage integration or bridge divides between groups of people.
- Those providing opportunities for vulnerable or marginalised groups.

We appreciate that many projects and organisations may work towards more than one of these outcomes and will ensure that this can be demonstrated through the application process.

Together we can
